

I Make My Own Weather

Lyrics by Robben Ford

1st vs

Here comes that feeling
Think I'm gonna let it roll
Might take me up to the northern lights
Or somewhere down in Mexico

1B:

And I won't need leather
Cuz I make my own weather

Chorus:

I find pleasure where you see pain
Find the sunshine where you see rain
Cuz I make my own weather

2nd vs:

A life under pressure
Makes no sense to me
A woman was born to laugh and to love
A man was born to be free

2B:

So I won't stand a tether
Cuz I make my own weather

Chorus:

Two wheels to take me out of misery
And blue skies as far as my eyes can see
Cuz I make my own weather
