

Wild Honey

Lyrics by Robben Ford

1st vs

Miracle miner

Trying to reach a star

Head in a tangle

Headed for the bar

Chorus:

Then a sudden sun sends a smile to me

Clearing clouds as it promises me

This pure gold

Wild honey

Pure joy

2nd vs.

Wind from the west

Stirs the Tennessee trees

Raise up my window

Feel a beautiful breeze

Chorus:

Then these lovely leaves brush against my skin

No more questions now, just gonna drink it in

This pure gold

Wild honey

Pure joy

This Pure gold, wild honey

Bridge:

Color my world

In yellow and red

The gifts of the earth, all the words that were said

And if love was whiskey I'd go out of my head

From pure gold

Wild honey

Pure joy
